INDEPENDENT AUDITORS' REPORT

To Ventec International Group Co., Ltd.:

Qualified opinion

We have audited the accompanying balance sheets of Ventec International Group Co., Ltd. (the "Company") and its subsidiaries (collectively, the "Group") for the first half of 2021 and 2022. The statements of comprehensive income for the first quarter of 2021 and 2022 as well as the statement of changes in shareholders' equity and cash flow statements for the first half of 2021 and 2022 were audited. The statements included relevant notes, such as a summary of significant accounting policies (collectively referred to as the "consolidated financial statements").

Based on our opinion, except for the potential impact of the matters described in the paragraph "Basis for qualified conclusion", we have determined that the foregoing consolidated financial statements have been prepared in all material respects in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and IAS 34 "Interim Financial Reporting" as endorsed and issued into effect by the FSC, with a fair presentation of the Group's consolidated financial position for the first half of 2021 and 2022. The consolidated financial performance for the second quarter ended on June 30, 2022 and on June 30, 2021. The consolidated cash flows for the first six months ended June 30, 2022 and on June 30, 2021.

Basis for qualified conclusion

As stated in Note 11 to the consolidated financial statements, the total assets of non-material subsidiaries included in the above consolidated financial statements, as of June 30, 2022 and June 30, 2021, were NT\$808,509 thousand and NT\$697,321 thousand, respectively, accounting for 14% and 12% of the total consolidated assets, respectively. Their total liabilities were NT\$178,963 thousand and NT\$109,131 thousand, respectively, accounting for 7% and 3% of the total consolidated liabilities, respectively. For the first and second quarter of 2022 and 2021, the total comprehensive income was NT\$(6,038) thousand, NT\$31,107 thousand, NT\$1,924 thousand, and NT\$44,247 thousand, respectively, accounting for 6%, 11%, 1%, and 10% of the total consolidated comprehensive income, respectively. We were unable to access the financial information and the management of these non-material subsidiaries. We also were unable to obtain sufficient and appropriate audit evidence for these monetary amounts. Therefore, we were unable to judge whether necessary adjustments should be made to these amounts.

We conducted our audits in accordance with the Regulations Governing the Auditing and Attestation of Financial Statements by Certified Public Accountants and auditing standards generally accepted in the Republic of China. Our responsibility under those standards is further described in the paragraph "Auditor's responsibilities for the audit of the consolidated financial statements". We are independent of the Group in accordance with The Norm of Professional Ethics for Certified Public Accountant of the Republic of China, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We are convinced that we have acquired sufficient and appropriate audit evidence to serve as the basis for our qualified opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements for the second quarter of 2022. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, we do not provide a separate opinion on these matters.

Except for the matters described in the paragraph “Basis for qualified opinion”, we have determined the matters below to be the key audit matters:

Key audit matter of the Group’s consolidated financial statements for the second quarter of 2022 is stated as follows:

Existence of specific revenue

The ratio of the Group’s subsidiary sales to specific customers in the second quarter of 2022 was higher than average compared to the previous period. Therefore, we considered the authenticity of revenue from specific customers as a key audit matter.

Refer to Note 4 on the Group’s consolidated financial statements for the accounting policy of revenue recognition.

The main audit procedures performed for the authenticity of specific revenue were as follows:

1. We understood the design and implementation of internal controls and tested the operating effectiveness of revenue derived from specific customers.
2. We sample tested the transaction documents related to revenue derived from specific customers, including sales order, shipping invoices and documents.
3. We sample tested the payee, payment terms and the timing of payment receipt related to revenue derived from specific customers to verify the authenticity of revenue.

Responsibilities of management and those charged with governance for the consolidated financial statements

The management team is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and IAS 34 “Interim Financial Reporting”, endorsed and issued into effect by the FSC. The management team determines such internal control and it is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the management team is responsible for assessing the Group’s ability to continue as a going concern, disclosing of relevant matters, and adoption of going-concern accounting basis unless the team intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance, including the audit committee, are responsible for overseeing the Group’s financial reporting process.

Auditor's responsibilities for the audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to

issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but it does not guarantee that an audit conducted in accordance with the auditing standards generally accepted in the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material. Whether individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with the auditing standards generally accepted in the Republic of China, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures in response to those risks, and obtain audit evidence that is sufficient and appropriate to form a basis for our audit opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
3. Evaluate the appropriateness of accounting policies used and the rationality of accounting estimates and related disclosures made by the management team.
4. Conclude on the appropriateness of the management team's use of the going-concern basis of accounting which is determined on evidence obtained and whether there is uncertainty related to events or circumstances that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that an event or circumstance holds considerable uncertainty, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or circumstances may cause the Group to cease to continue as a going concern.
5. Evaluate the overall presentation, structure, and content of the consolidated financial statements, including the disclosures and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
6. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision, and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding the planned scope and timing of the audit, significant audit findings, and other matters, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance a statement that we follow relevant ethical requirements regarding independence, and we communicate with them all relationships that may affect our independence or other matters (including related safeguards).

From these communicated matters, we determine which of those are most significant in the audit of the consolidated financial statements for the second quarter of 2022 and therefore become key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public

disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest it promotes.

4. A SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

a. Statements of compliance

The consolidated financial statements have been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and IAS 34 "Interim Financial Reporting" as endorsed and issued into effect by the FSC. The consolidated financial statements do not contain all the data to be disclosed in the annual financial statements as required by the IFRSs.

b. Basis of preparation

The consolidated financial statements have been prepared based on past costs on the historical cost basis except for financial instruments that are measured at fair value and net defined benefit liabilities which are measured at the present value of the defined benefit obligation which are less than the fair value of plan assets.

The fair value measurements, which are grouped into Levels 1 to 3, are based on the degree to which the fair value measurement inputs are detectable and the significance of inputs to the fair value measurement in its entirety. The fair value measurements are described as follows:

- 1) Level 1 inputs: Quoted prices (unadjusted) in active markets for identical assets or liabilities;
- 2) Level 2 inputs: Inputs other than quoted prices included within Level 1 that are observable for an asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices); and
- 3) Level 3 inputs: Undetectable inputs for an asset or liability.

c. Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and the entities controlled by the Company (i.e., its subsidiaries). Income and expenses of subsidiaries acquired or disposed of during the period are included in the consolidated statement of profit or loss and other comprehensive income from the effective dates of acquisitions up to the effective dates of disposals, as appropriate. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with those used by the Company. All intra-group transactions, balances, income and expenses are eliminated in full upon consolidation. The total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

See Note 11 and Tables 5 and 6 for detailed information on subsidiaries (including the percentages of ownership and main businesses).

d. Other significant accounting policies

In addition to the description below, please refer to the summary of significant accounting policies in the 2021 consolidated financial statements.

1) Defined post-retirement benefits

The interim pension cost is calculated based on the accurately calculated pension cost rate at the end date of the previous financial year for the period from the beginning of the year to the end of the period. It is subject to major market fluctuations, major plan revisions, liability settlement, or other major one-off events during this period.

2) Income tax

Income tax expense represents the sum of the tax currently payable and deferred tax. Income tax for the interim period is calculated on an annual basis based on the income before tax for the interim period at the tax rate that applies to the estimated total annual earnings.

5. SIGNIFICANT ACCOUNTING JUDGMENTS AND MAJOR SOURCES OF ESTIMATING UNCERTAINTY

Please refer to the consolidated financial statements in 2021 for significant accounting judgments and major sources of estimating uncertainty adopted for these consolidated financial statements.

6. Cash and cash equivalents

These contracts did not meet the criteria for hedge accounting. Therefore, the Group did not apply a hedge accounting treatment for these contracts.

The Group signed a three-month structured time deposit contract with a bank. The structured time deposit includes an embedded derivative that is not closely associated with the host contract. As the host contract contained in a hybrid contract is an asset within the scope of IFRS 9, the hybrid contract as a whole is mandatorily classified as at FVTPL. The earning yields as of December 31, 2021 ranged from 1.30% to 3.65%.

a. Trade receivables

The Group's credit period of sales of goods ranges from 120 days to 150 days. No interest was charged on trade receivables due to a short period of credit grant. In order to minimize credit risk, the management team of the Group has delegated a team responsible for determining credit limits and other monitoring procedures to ensure that follow-up action is taken to recover overdue debts. In addition, the Group reviews the recoverable amount of each individual trade debt at the end of the reporting period to ensure that adequate allowance is made for possible irrecoverable amounts. In this regard, the management believes the Group's credit risk was significantly reduced.

The Group measures the loss allowance for trade receivables at an amount equal to lifetime ECLs. The expected credit losses on trade receivables are estimated using a provision matrix by reference to past default experience of the debtor and an analysis of the debtor's current financial position. It takes into account the general economic conditions of the industry in which the debtors operate and considers the assessment of both the current and forecasted direction of economic conditions at the reporting date. As the Group's historical credit loss experience does not show significantly different loss patterns for different customer segments, the provision for loss allowance based on past due status is not further distinguished according to the Group's different customer base.

The Group writes off a trade receivable when there is information indicating that the debtor is in severe financial difficulty and there is no realistic prospect of recovery. The Group still continues to engage in enforcement activities to attempt to recover the receivables due. Where recoveries are made, these are recognized in profit or loss.

The following table details the loss allowance of trade receivables based on the Group's provision matrix.

In September 2021, the Group acquired the assets and operations of the printed circuit board business of Holders Technology Plc., and continued to run the business. According to the Group's assessment, the acquired business and the recognized amortized goodwill belong to the same cash-generating unit. Therefore, the assets acquired on the acquisition date were included in the cash-generating unit of the amortized goodwill from the acquisition date. Please refer to Note 25 for the information on business combinations.

The Group assesses the recoverable amount of goodwill at the end of the annual reporting period and uses the value in use as the basis for calculating the recoverable amount. The calculation of value in use at the end of 2021 and 2020 is based on projected cash flow of each cash-generating unit over the next five years and is calculated using discount rates of 14.90% and 13.60%, respectively, to reflect specific risks of the relevant cash-generating unit. The recoverable amount of goodwill at the end of 2021 and 2020 was estimated to be NT\$258,861 thousand and NT\$105,937 thousand, respectively, which were still greater than the carrying amounts. Therefore, no impairment loss was recognized. Moreover, as of 2021 until June 30, 2022, there was no sign of impairment loss.

- 1) Unless otherwise provided under the laws and the applicable listing rules, neither the statutory reserve nor the capital reserve shall be used except for offsetting the losses of the Company. The Company shall not use the capital reserve to offset its capital losses unless the statutory reserve and special reserve set aside for purposes of loss offset are insufficient to offset such losses.
- 2) Being subjected to the laws, where the Company incurs no loss, it may, by a special resolution, distribute its Statutory reserve, the share premium account and/or the income from endowments received by the Company, which are in the capital reserve available for distribution, in whole or in part, by issuing new, fully paid shares and/or by cash to its members.

c. Retained earnings and dividends policy

Under the dividends policy as set forth in the Articles of Incorporation, the Company is in the growing stage where the dividend of the Company may be distributed in the form of cash dividends and/or share dividends. The Company shall take into consideration the Company's capital expenditures, future expansion plans, financial structure, funds requirements, and other plans for sustainable development needs in assessing the amount of dividends distributed by the Company. Being subjected to the laws, applicable listing rules and the Articles, and otherwise provided by the rights attached to any shares, if the Company still has a surplus at the end of the fiscal year, it will pay all relevant taxes, offset any losses (including losses of previous years and adjusted undistributed profits), set aside the statutory reserves of the remaining profits (provided that setting aside the statutory reserve does not apply if the aggregate amount of the statutory reserve amounts to the Company's total paid-in capital), and set aside any special reserve. The board may, by a resolution passed by a majority of the directors, of which two-thirds or more of the board are present, distribute not less than ten percent (10%) of the remaining balance (including the amounts reversed from the special reserve), plus accumulated undistributed profits of previous years (including adjusted undistributed profits) in part or in whole to the members as dividends/bonuses in proportion to the number of shares held by them. In addition, a report of such distribution shall be submitted to the general meeting, provided that, cash dividends shall not be lower than ten percent (10%) of the total amount of dividends to be paid out. The Company may resolve to distribute net profits or offset losses at the end of each half of the fiscal year. When the Company still has a net profit at the end of the first half of the fiscal year, the Company shall first estimate and reserve the amount of compensation of employees, including the remuneration of directors, and then pay tax from the said profits. After offsetting losses (including losses as at the beginning of the first half of the fiscal year and any adjusted undistributed profits), the statutory reserve of the remaining profits will be set aside in accordance with the applicable listing rules (provided that the statutory reserve does not apply if the aggregate amount of the statutory reserve equals the Company's total paid-in capital). Any other special reserve will also be set aside. The board may, subject to the compliance with the percentage of distribution as set forth, resolve to distribute the remaining balance (including the amounts reversed from the special reserve) in addition to the accumulated undistributed profits at the beginning of the first half of the fiscal year (including adjusted undistributed profits). This may be in whole or in part as dividends/bonuses that are proportional to the number of shares held by them respectively pursuant to the Articles. In addition, a report of such distribution shall be

submitted to the general meeting. Being subjected to the laws, the applicable listing rules and the Articles, the Company may distribute any part or all of the dividends or bonuses to the members in accordance with the preceding Articles. The Company may do so by applying the payment in full unissued shares for allocation and distribution to the members. For the policies on the distribution of compensation of employees and remuneration of directors after the amendment, please refer to compensation of employees and remuneration of directors in Note 21-(5).

Unless resolved by the general meeting of the Company, the dividends, bonuses, or other forms of distributions payable to the members shall be calculated in NTD.

| Diluted earnings per share | <u>\$ 1.92</u> | <u>\$ 4.05</u> | <u>\$ 3.58</u> | <u>\$ 6.73</u> |

The earnings and weighted average of ordinary shares used to estimate earnings per share were as follows:

| | April 1, 2022 to June 30, 2022 | April 1, 2021 to June 30, 2021 | January 1, 2022 to June 30, 2022 | January 1, 2021 to June 30, 2021 |

If the Group offers to settle compensation payment to employees in cash or shares, the Group will assume the entire amount of the compensation will be settled in shares, and the resulting potential shares will be included in the weighted average of outstanding shares used to estimate diluted earnings per share, as the effect is dilutive. Such dilutive effect of potential shares is included in the estimation of diluted earnings per share until the number of shares to be distributed to employees is resolved in the following year.

24. Share-based payment arrangements

Employee restricted shares

In the shareholders' meeting on June 11, 2020, the shareholders approved a restricted share plan for employees with a total amount of 800 thousand stocks and issued all of these shares on September 23, 2020.

The restrictions on the rights of the employees who acquire the restricted shares issued by the Company in September 2020 are those that have not met the vesting conditions, which include restrictions to sell, pledge, transfer, donate or, in any other way, dispose of these shares. However, the shares are entitled to allotment, dividends, and share options of increased share capital.

If an employee fails to meet the vesting conditions, the Company will take back and cancel the employee's restricted shares.

Information about employee restricted shares is as follows:

26. Capital risk management

The Group manages its capital to ensure that entities in the Group will be able to continue as going concerns while maximizing the return to shareholders through the optimization of the debt and equity balance.

27. Financial instruments

a. Fair value of financial instruments not measured at fair value

The management team of the Group believes that the carrying amounts of financial assets and liabilities which are not measured by fair value are close to fair value or cannot be reliably measured.

d. Financial risk management objectives and policies

The Group's corporate department provides services for each business unit, coordinates access to domestic and international financial markets, and monitors and manages financial risks related to the operations of the Group through internal risk reports by analyzing exposures according to the degree and magnitude of risks. These risks include market risk (including foreign currency risk and interest rate risk), credit risk and liquidity risk.

The Group seeks to minimize the effects of these risks by using derivative financial instruments to hedge risk exposures. The use of financial derivatives is governed by the Group's policies which are approved by the board of directors who provide written principles on foreign currency risk, interest rate risk, credit risk, the use of financial derivatives and non-derivative financial instruments, and the investment of excess liquidity. Compliance with policies and exposure limits is reviewed by the board of directors on a continuous basis. The Group did not engage in nor trade financial instruments, including derivative financial instruments, for speculative purposes.

1) Market risk

The Group's operating activities main market risks are those of changes in foreign currency exchange rates and interest rates.

There has been no change to the Group's exposure to market risks or the manner in which these risks are managed and measured.

a) Foreign currency risk

Several subsidiaries of the Company have foreign currency sales and purchases, which exposes the Group to foreign currency risk. Exchange rate exposures are managed within approved policy parameters utilizing foreign exchange derivatives.

The carrying amounts of the Group's foreign currency denominated monetary assets and monetary liabilities (including those eliminated on consolidation) and of the derivatives exposed to foreign currency risk at the end of the reporting period are set out in Note 31.

Sensitivity analysis

The Group's sensitivity analysis mainly focuses on the foreign currency risk of U.S. dollars at the end of the reporting period. Assuming a 1% strengthening/weakening of the functional currency against U.S. dollars, the Group's net income before tax for the six months ended June 30, 2021 and 2020 would have decreased/increased by NT\$11,043 thousand and NT\$8,475 thousand, respectively.

In the management team's opinion, the sensitivity analysis was unrepresentative of the inherent foreign currency risk, because the exposure at the end of the reporting period did not reflect the exposure during the period.

b) Interest rate risk

The Group is exposed to interest rate risk because entities in the Group borrow funds at both fixed and floating interest rates. The risk is managed by the Group by maintaining an appropriate mix of fixed and floating rate borrowings.

The carrying amount of the Group's financial assets and financial liabilities with exposure to interest rates at the end of the reporting period was as follows:

| | June 30, 2022 | December 31, 2021 | June 30, 2021 |
|-------------------------------|------------------|----------------------|------------------|
| Fair value interest rate risk | | | |
| Financial assets | \$ 221,417 | \$ 217,076 | \$ 150,941 |
| Financial liabilities | 678,172 | 737,022 | 811,859 |
| Cash flow interest rate risk | | | |
| Financial assets | 786,571 | 520,171 | 731,320 |
| Financial liabilities | 153,852 | 172,539 | 175,689 |

Sensitivity analysis

The sensitivity analysis was determined based on the Group's exposure to interest rates for non-derivative instruments at the end of the reporting period. For floating rate financial assets and liabilities, the analysis was conducted with the assumption that the amount of each liability outstanding at the end of the reporting period was outstanding for the whole year. A 25 basis point increase or decrease is used when internally reporting interest rate risk to key management personnel. This represents the management team's assessment of the reasonably possible change in interest rates.

If interest rates had been 25 points higher and all other variables were held constant, the Group's net income before tax for the six months ended June 30, 2022 and 2021 would have increased/decreased by NT\$791 thousand and NT\$695 thousand, respectively, which was mainly attributable to the Group's exposure to interest rates on its variable-rate bank deposits and borrowings.

2) Credit risk

Credit risk refers to the risk that the counterparty will default on its contractual obligations resulting in financial loss to the Group. Through the end of the reporting period, the Group's maximum exposure to credit risk, which would have caused a financial loss to the Group due to the failure of the counterparty to discharge its obligation and due to the financial guarantees provided by the Group, could be equal to the total of the following:

- a) The carrying amount of the respective recognized financial assets as stated in the consolidated balance sheets.
- b) The amount of contingent liabilities in relation to financial guarantees issued by the Group.

The Group adopted a policy of only dealing with creditworthy counterparties as a means of mitigating the risk of financial loss from defaults. The Group's exposure and the credit ratings of its counterparties are continuously monitored. The Group also checks between the transaction amount and credit limit periodically and adjusts the limit in time to control credit risk.

The counterparties of the Group's trade receivables included numerous clients distributed over a variety of areas, and were not centered on a single client or location. Furthermore, the Group continuously assesses the financial condition of its clients, and the Group's credit risk was limited. At the end of the reporting period, the Group's largest exposure on credit risk approximates the carrying amounts of its financial assets.

3) Liquidity risk

The Group manages liquidity risk by monitoring and maintaining a level of cash and financing facilities deemed adequate to finance the Group's operations whilst mitigating the effects of fluctuations in cash flows.

The Group relies on bank borrowings as a significant source of liquidity. As of June 30, 2022, December 31, 2021, and June 30, 2021, the Group's undrawn available short-term bank loan facilities are set out in (2) below.

a) Liquidity and interest rate risk tables for non-derivative financial liabilities

The following table details the Group's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods. The table was drawn up based on the undiscounted cash flows of financial liabilities from the earliest date on which the Group can be required to pay. The table includes both interest and principal cash flows.
