PLASTIC INTERLEAVES

PRODUCT DETAILS

Available in six different colours:

- Blue, Orange, Green, Red, Yellow & Purple
- Dimensions 24 x 18" with radius corners
- Thickness 0.5mm

ADVANTAGES

- 6 different colours for different processes
- Potential to use on auto-load unload machines
- Improve handling less scrap
- Ability to re-clean through a rinse drying section (temperature must be considered)
- Avoid cross contamination by using on specific designated processes

INNER-LAYER PROCESSES WHERE THE INTERLEAVES CAN BE USED:

- After dry film lamination or liquid coat
- Imaging
- Develop, Etch & Strip
- AOI
- Pre-bond surface prep
- Build up for pin-less bond
